

Cemetery Trustees

Town of Dublin

Meeting Minutes

November 2, 2020

In attendance were Loring Catlin, Brian Barden, Hank Campbell and Kiki Sangermano.

1. Cemetery tree map. Kiki had the large map copy provided by Nancy Campbell reduced to a workable size. More copies will be made to be used to identify areas of the cemetery that need work or trees that need to be removed.
2. Time cards. Working OK for the present. Hank may still talk to Roger about any agreeable changes.
3. Vacuum repair. Hoses have been replaced with money already in the budget.
4. Vacuum replacement. Hank is still working on getting estimated cost of replacement from various places. He has stated that they definitely want to be sure that the vacuum motor is attached to the vacuum trailer and not attached to the mower. His first look at a DR shows prices from \$1200 to 2400. Hank feels the current vacuum should last another year so Loring made the motion to put off discussion regarding a new vacuum until next fall. Seconded by Brian and passed.
5. Jane Young lot. Loring will talk to the family sometime in the spring.
6. ID shrubs in the 101/Old Common Road area...probably alder. Loring recommended that Hank will continue to cut down as time allows and they will try to keep it cut down by weed wacker/mower. Seconded by Kiki and passed.
7. Discussion about monument for Jean Brown's lot. Placement in top half of the lot from center line towards the top was suggested to allow for a second monument for her husband.

Meetings for the winter months will depend on any items Hank brings up.

Respectfully submitted,

Kiki Sangermano
