Application Checklist Excavation Plan

(Scale: 1" = 100')

1. A signed and dated application form. ☐
2. Copies of any required permits. ☐
3. Name and address of owner, excavator, and all abutters. ☐
4. Seal and signature of licensed surveyor or engineer. ☐
5. Sketch and description of the location and boundaries of proposed and any existing excavations in square feet and acres, and the municipalities involved. ☐
6. Zoning district boundaries of excavation area and within 200 feet of the area boundary. ☐
7. Lot lines, public streets, driveways, intersections, rights-of-way, and all easements within 200 feet of the excavation. ☐
8. Location of existing buildings, structures, septic systems and wells within 200 feet of the excavation. ☐
9. Topography at contours intervals of five feet or less. ☐
10. All surface drainage patterns including wetlands and standing water. ☐
11. Sketch and description of existing and proposed access roads, including width and surface materials. ☐
12. Breadth, depth and slope of the proposed excavation. ☐
13. Elevation of the highest annual average ground water table within or next to the proposed excavation. ☐
14. Test pit data or log of borings to within either the seasonal high water table or a minimum of six feet below the proposed excavation depth. ☐
15. Fencing, buffers, or other visual barriers, including height and materials. ☐
16. Measures to control erosion and sedimentation, water and air pollution, and any hazards to public safety. ☐

TOWN OF DUBLIN

PO Box 277

Dublin, NH 03444

Excavation Checklist

1. The excavation is permitted in the zoning ordinance. ☐
2. The excavation is within 50 feet of an approving abutter
or 10 feet of a disapproving abutter. ☐
3. The excavation will not be unduly hazardous to the public welfare. ☐
4. Existing visual barriers will not be removed,
except to gain access to the excavation. ☐
5. The excavation will not substantially damage a known aquifer. ☐
6. The excavation is not closer than 150 feet to an existing dwelling
or to a site for which a building permit has already been issued. ☐
7. The excavation is not below road level within 50 feet of the public right-of-way. ☐
8. Vegetation is maintained within the peripheral areas of items 6 and 7 above. ☐
9. Fuels, lubricants, etc. are not stored on the site. ☐
10. If temporary slopes exceed a 1:1 grade,
an appropriate barricade is provided for. ☐
11. The excavation will not cause the accumulation of freestanding water
for prolonged periods of time. ☐

Application Checklist Reclamation Plan

(Scale: 1" = 100')

□

1. Seal and signature of a licensed surveyor or engineer. ☐
2. All boundaries of the area proposed for reclamation, and the land within 200 feet of these boundaries. ☐
3. Final topography at contour intervals of five feet or less. ☐
4. Final surface drainage pattern. ☐
5. Timetable as to fully-depleted sites within the project area. ☐
6. Schedule of final reclamation activities, including seeding mixtures, cover vegetation, fertilizer types and application rates. ☐

TOWN OF DUBLIN

PO Box 277

Dublin, NH 03444

Reclamation Checklist

□

1. Tree seedlings will be planted in areas visible from a public way to replace trees that were removed. ☐
2. All disturbed areas will be re-seeded. ☐
3. Provision is made for the removal of all stumps and other debris. ☐
4. Slopes will be graded according to the soil type, and will not be left steeper than 2:1. ☐
5. No standing bodies of water created by the excavation will be left if they create a public hazard. ☐
6. The topography will be left so that drainage reverts to its original points and proportions of flow. ☐
